

Without Media Diversity We don't have a democracy  
Dear FCC Commissioners,  
Our Government representatives are lying to us and gaining control of the media to prevent us from finding out.

Colin Powell lied about Iraqi weapons of mass destruction and the media is not reporting on this.

George Bush lied about terrorist camps in Iraq and the media is letting him get away with it.

The United States military killed thousands of Iraqi's and no one is reporting it.

The Bush administration has dreamed up a terrorist enemy to use to promote police state tactics and silence dissent and the media is being used to promote this agenda!

Now we have the Bush administration harnessing the media for continuous propaganda to control public sentiment by consolidating ownership of radio, tv, cable and internet.

Do your job and protect the media. It belongs to the people, not to George Bush!

Respectfully,
